

## To the parents of Kid's Kastle and Small Wonders Daycare:

I have had the pleasure of teaching music classes for these two daycares for the past 6 years. I have to say that the children here are better behaved and more focused than many of my school classes. I have been teaching music in pre-schools and daycares in Fairfield County for the past 14 years. I often tell Donna and Kathy how I am so amazed at the children and how they respond and focus before, during and after music class. The children's impeccable behavior is a tribute to these two wonderful daycare providers/teachers. They treat the children with respect and kindness. It is awesome to work with them!

The children are always so happy and get along so well. I am in awe of how well they listen and participate in music class, even the youngest ones. And most important to me (as a mom and a teacher) is that they are treated with loving kindness. It is inspiring for me to witness this. It shows me how children respond when they are in a kind and loving environment.

Kid's Kastle and Small Wonders are among my favorite places to work and I look forward to going each and every time. I love that Donna and Kathy get together with their children for music class. We all have so much fun together and the children absolutely love it.

My hat is off to these two wonderful people, Donna and Kathy! Your children are in a very caring and loving environment. It is my absolute pleasure to work with them. And, also to be able to work with your beautiful children. They make me laugh and we have so much fun.

With much gratitude,

*Miss Mary*
